CONDITIONS OF SALE

1. The Cattle will be exposed separately according to the numbers in the following Catalogue. The Auctioneers reserve the right to refuse any bid without assigning any reason. The highest offerer of each lot will be preferred to the purchase (subject to Article 3)—each offer exceeding the former by at least one guinea. All entries must be clearly tattooed in the ear with their correct tattoo letters and numbers in accordance with the Regulations of the Shorthorn Society, and any animal found not being so tattooed will be reported to the Directors of the Scottish Shorthorn Breeders' Association, and such animal may be rejected from the Show and Sale. Twins must be so described, also whether twin with a bull or heifer.

2. The pedigree of each animal is guaranteed to be correct and registered or accepted for registration in Coates' Herd Book by the person whose name appears as the Exposer, but every animal is sold subject to all faults otherwise, with the exception that if a bull has only one Testicle down, the Owner must make intimation to this effect in the Catalogue. No liability whatever is undertaken by the Auctioneers for the statements appearing in the Catalogue or made at the Sale. The Exposer who supplies such statements is alone responsible for any error or mis-statement. Animals affected with any disease of an infectious nature or animals out of an infected Herd are strictly prohibited from being brought to the premises occupied or used by the Company at the time and should any such be brought, the Owner or Consigner will be held responsible for all damage or loss occasioned thereby.

3. The Exposers reserve the right to fix a reserve price, and to announce same before the bidding begins or during the time of the bidding or at the conclusion thereof. The right to bid by or on behalf of the Seller in terms of the Sale of Goods Act, 1893, is expressly reserved. Every animal must be the *bona fide* property of the Exposer at the time of Sale.

4. Immediately after each purchase is declared, the risk of the animal shall be exclusively with the Buyer, and it is declared that until a settlement shall be made in terms of these Conditions the delivery of the animal shall be suspended. The right of property shall not pass until the price is paid.

5. Immediately after the Sale all lots must be paid for in cash to the Auctioneers. The price being paid, each lot shall be taken away at the Buyer's expense within one day after the Sale thereof. Lots shall only be removeable from the Auctioneers' possession on a written order from their clerk, and any lot removed in contravention of this condition may be recovered *brevi manu* by the Auctioneers.

6. Should any buyer fail to pay for and remove his purchase in compliance with the above Conditions, the Auctioneers in their option may either (a) sue the Buyer for the price and interest thereon at the rate of *Six per Centum*

per Annum and for the keep of, and any other expense incurred by them in connection with such purchase, or (b) re-sell the Lot either publicly or privately and recover from the defaulting buyer the deficiency (if any) attending such re-sale and interest thereon as aforesaid together with the keep and all other expenses. In either case, the Auctioneers shall have the right to sue at their own instance without the consent of the Owner or Consigner, and no defence whatever in such action shall be competent to the Buyer who shall have recourse against the Owner or Consigner alone.

7. If any animal be sold with the option to "Test," such condition shall not operate to suspend the sale or the passing of the risk but shall have effect only as follows:—

- (a) The condition shall be provable only by entry in the Auctioneers' Sale Roll.
- (b) If the option to re-test is given, the Purchaser may require the Single Intradermal Comparative Test for Tuberculosis. The Purchaser may also require the animal to be submitted to the Agglutination Test for Contagious Abortion at a laboratory approved by the Ministry of Agriculture, Fisheries, and Food, and if a test for Johne's Disease is required, it shall be the Complement Fixation Test for Johne's Disease to be carried out at the Weybridge Laboratory of the Ministry of Agriculture, Fisheries, and Food. Notice in writing of the intention of the Purchaser to carry out such tests must be given to the Auctioneers before, or immediately after, termination of the Sale.
- (c) The test shall be made by a Veterinary Surgeon to be mutually chosen between the Buyer and Seller or, failing their agreement, to be chosen by the Auctioneers.
- (d) The test or tests shall only be made when the animal is (in the opinion of the chosen Veterinary Surgeon) in a fit state for testing and in the case of a test for Tuberculosis on an animal in an Attested Herd, after permission has been obtained from the Ministry of Agriculture, Fisheries, and Food. The time for testing shall be limited to three weeks after Sale, with power, however, to the Auctioneers to extend the period of testing from time to time if they, after hearing the chosen Veterinary Surgeon, deem such extension reasonable, and provided that in the case of the Test for Tuberculosis, it shall only be carried out after an interval of not less than thirty days following any previous Test for Tuberculosis.
- (e) The declaration of the chosen Veterinary Surgeon that the animal has been duly tested and the result of his test shall be final and binding on both Seller and Buyer.
- (f) If the animal be so declared not to have passed the test, the Buyer shall have the right to require the Seller to re-purchase the animal at

the price of the original sale. Such requisition shall be notified in writing to the original Seller, and from the date of receipt of such notice the risk and expense of the animal shall be transferred to him.

- (g) In any case where the option to test is exercised, the Auctioneers shall be entitled to retain the price until the result of the test is declared.
- (h) The expense of any such test or tests shall be borne by the Purchaser.

8. Should an Exposer wish to warrant a bull as being a good server and stock-getter or such other qualified warranty as the Exposer may wish to give, such warranty shall be included and shall form part of the description of the bull as shown in the printed Catalogue. Should a warranty of good service and stock-getter be given, and should it be established subsequent to the Sale that the bull is incapable of service, or while capable of service is incapable of getting stock, a Purchaser shall be entitled, within sixteen weeks from the date of the Sale, to intimate such incapacity to the Vendor, and if such incapacity shall be proved by a Certificate of a Veterinary Surgeon mutually chosen, the Vendor shall be bound to accept delivery of the bull and refund the Purchaser the full purchase price of the bull. To establish a Claim under this condition, the Purchaser must give notice of his claim within sixteen weeks of the Sale. Should the Purchaser and Vendor not agree upon the appointment of a Veterinary Surgeon to examine the bull, the Auctioneers shall appoint a Veterinary Surgeon for this purpose and shall decide by which party the Veterinary Surgeon's fees and expenses shall be paid. In his Certificate the Veterinary Surgeon must state that he has examined the bull, that its impotence or incapacity is not due to injury suffered or illness contracted since the purchase, and that he has also examined the cows or heifers upon which the bull has been tried and found them in a normal breeding state or condition, and he shall give his reasons for declaring the bull ineffective and incapable of getting stock. Notwithstanding the right of the Purchaser to return the bull to the Vendor on the ground of impotency or incapacity, the Vendor shall in no case be liable under this condition for a sum exceeding the amount for which the bull was sold (plus any expenses which may be awarded by the Auctioneers against the Vendor in terms of this paragraph) less its saleable value at the date of the Veterinary Surgeon's Certificate. In respect of bulls purchased for export, no claim under this Article shall be valid unless made prior to the shipment of the bull or within sixteen weeks of the Sale, whichever is the earlier date.

It shall be understood that this guarantee does not operate where a bull from an Attested Herd is sold to go to Non-Attested Premises.

9. All females born after 1st August, 1955, must be certified to have passed the Agglutination Test for Contagious Abortion within three months of date of Sale, or must have been vaccinated. The blood samples for the Agglutination Test must have been taken by a Veterinary Surgeon and submitted by him to an approved laboratory. Animals having passed the test must not, prior to the Show and Sale, come into contact with any animal

that is known to be infected with Contagious Abortion. The entry of any animal which has not passed the Agglutination Test but which has been vaccinated, can only be accepted providing that one of the following certificates (signed by a Veterinary Surgeon) is supplied:—

- (a) That the animal was inoculated with Br. Abortus Vaccine No. 1 (Strain 19) when between four and eight months old and within three years of date of Sale, or
- (b) That the animal having passed the Agglutination Test was then vaccinated within fourteen days with Br. Abortus Vaccine No. 1 (Strain 19) when over eight months old and within three years of date of Sale, or
- (c) That the animal having been previously vaccinated in accordance with either (a) or (b) was re-vaccinated within three years of the previous vaccinations and not more than three years prior to date of Sale.

10. All cows and heifers that are stated in the Catalogue as having been served or artificially inseminated not less than twelve weeks before the date of Sale, or stated as having been running with a bull between dates (the later of which is not less than twelve weeks before date of Sale), will be guaranteed to be in-calf to the service date or between dates and to the bull stated in the Catalogue, unless any alteration is announced at the time of Sale. Heifers which have not had a calf and which are sold unserved shall be so guaranteed. All claims which may be competent under this Condition must be intimated to the Auctioneers within sixteen weeks of the Sale, but in respect of females purchased for export a claim must be made prior to the shipment of the animal or within the said period of sixteen weeks whichever is the earlier date. To establish any claim under this Condition the Purchaser and Vendor shall mutually agree upon a Veterinary Surgeon to examine the animal, and failing agreement a Veterinary Surgeon shall be appointed by the Auctioneers. In his Certificate the Veterinary Surgeon must state that the condition of the animal was not due to any injury or disease contracted since the Sale. Should a claim be established and made as a result of the Veterinary Surgeon's Certificate the Vendor shall be bound to accept delivery of the cow or heifer (as the case may be) and refund to the Purchaser the full purchase price of the animal which shall be at the Vendor's risk and expense as from the date of the notification to the Vendor of the Veterinary Surgeon's decision. Failing agreement between the Vendor and the Purchaser the Auctioneers shall decide by which party the Veterinary Surgeon's fees and expenses shall be paid.

11. No undertaking of the Auctioneers or their servants to take charge of any animal after the Sale or to forward it to its destination shall be held to impose upon the Auctioneers any legal obligation or vitiate any of the foregoing conditions.

12. If any dispute—other than (a) a dispute or question relating to the conduct of the Sale and (b) a dispute for the settlement of which provision has been made in terms of these Conditions—shall arise regarding any Shorthorn animal registered in Coates' Herd Book and sold at this Sale, such dispute shall be referred to the Council of the Shorthorn Society of Great Britain and Ireland as sole Arbiters for settlement, and the decision of the Council shall be final and binding on all parties to the dispute.

13. Private Sale. Each animal entered in the Catalogue must be offered for sale by Auction before any private sale shall be allowed or recognised by the Auctioneers. The usual commission must be paid on all animals afterwards sold privately within the premises of the Auctioneers.

14. Without prejudice to the foregoing Conditions of Sale it is hereby expressly declared that the Exposer by selling and the Purchaser by purchasing any animal in terms of the Conditions of Sale shall be bound by the above Conditions of Sale and shall be bound, where a dispute is referred to a Veterinary Surgeon, to accept the verdict or decision of the Veterinary Surgeon as final and binding on both Exposer and Purchaser. Neither party shall have any recourse to law in respect of said dispute otherwise than on the ground of fraud.

15. The Auctioneer is appointed Judge of the Sale, to whom are hereby submitted all disputes and differences of any kind which may arise at and in relation to the Auction, either between Exposers and Offerers or among Offerers themselves. His decision shall be final and binding on all parties.

Unlicensed Bulls of the prescribed age exposed for Sale at Auction Marts

Attention has been drawn by the Secretary of State to the increasing number of unlicensed Bulls exposed for sale throughout Scotland.

In terms of the Improvement of Livestock (Licensing of Bulls) Act, 1931, the prescribed age at which all bulls must be licensed is **10 months**, and applications must be submitted to The Department of Agriculture for Scotland, St. Andrew's House, Edinburgh, 1, not later than 28 days before the animals attain the prescribed age. There are no grounds for the belief that applications for licences do not require to be made until the animals are used for service.

All Bulls (10 months and over) exposed for sale must, therefore, be accompanied by the Licence issued by The Department of Agriculture for Scotland.

**All Reserve Prices to be handed to the Clerk of Sale before Nine
o'clock on Morning of Sale Day.**

One of his sons at Perth in 1961 was in the champion group of five, while another won the supreme championship at the Inverness Bull Sale. His heifers are particularly attractive, and several have been retained for the herd.

- (41) **CHAPELTON CLIPPER CHIEF** (11418)—sire, Chapelton Chieftain.

Chapelton Clipper Chief was a 1st prize winner, won the junior championship, and was reserve for the male championship at the Royal Highland Show; and 1st prize winner, junior champion, and Calrossie Cup winner at the R.A.S.E. Show, in 1958. He is a full brother to the 5100-guineas Chapelton Commando, reserve senior champion at Perth in 1957.

- (42) **GLAMIS GLENISLA** (14169)—sire, Easterlovat Bernard; dam, Cluny Lady Broadhooks 20th.

Easterlovat Bernard is a son of Kirkton Justin. Cluny Lady Broadhooks 20th's sire and dam were joint winners of the Bullrich Cup (for the best pair of beef shorthorns bred by exhibitor) at the R.A.S.E. Show in 1953.

- (43) **BALDOWRIE BRAEMAR** (10517), red—sire, Baldowrie Aladdin (3238); by Kirkton Heir; dam, (416034) Baldowrie Broadhooks Hopeful by Phopachy Hope.

Baldowrie Braemar was purchased at Perth in February, 1957, for 1000 guineas, and is the only son of Baldowrie Aladdin (the junior and reserve supreme champion in 1955) in this country. Braemar's first crop of calves at Perth in February, 1960, averaged £1094, and made him the fifth top selling sire of the sale. He was the sire of the reserve group of three, which included Dungarthill Command, sold to Naemoor for 2300 guineas. Braemar's dam is also the mother of Baldowrie Balmoral, who was used most successfully at Baldowrie.

- (44) **PITTODRIE ROBIN** (16343), roan—sire, Beaufort Captive (6063) by Burnton Bank Book; dam, (35563) Pittodrie Nadine by Cruggleton Pilkington (387120).

Pittodrie Robin won the Casares Cup at the Royal Highland Show at Aberdeen in 1959, and was used in the Pittodrie Herd until the herd was dispersed in October of that year, when he was purchased jointly by Lawton and Ardbennie. The first and only calf to be offered at Perth in 1961 was Ardbennie Red Robin, bought by Mr. E. M. Alexander for 620 guineas. This season's calves at Ardbennie, Lawton, and Dungarthill show great

promise, and those from the first two herds have been prominent in the show ring during the summer of 1961. Pittodrie Robin, now wholly owned by Ardbennie, is a bull of great fleshing qualities, and he has been successfully shown by both Lawton and Ardbennie, being male champion at Alyth in 1960 and male champion at both Crieff and Kinross in 1961.

- (45) **BAPTON CONTROLLER** (10021), white, calved 10th January, 1956, bred by Mr. Cecil Moores—sire, Bapton Aurora (2588); dam, (432511) Bapton Queen Jean by Bapton Enterprise (387760); g.-dam, Rothes Queen Penelope by Kirkton Baronet.

Bapton Controller was supreme champion at Perth in 1957, and a member of all the champion groups. He was purchased by Naemoor for 6500 guineas. In 1959, his first crop of calves at Perth, he sired three prize winners. In 1960 he sired two 1st prize winners, the champion two-year-old and reserve senior champion, and two further prize winners. His progeny in that year won many prizes at the summer shows, including a 1st prize at the Royal Highland Show and the male championship at the Great Yorkshire Show. In 1961 eight of Controller's sons at Perth in February averaged £754, and all but two were awarded prize tickets. Naemoor Dictator was sold to Bapton for 2400 guineas, and Naemoor Dauntless was sold to Duncrahill for 1100 guineas. Again, in March, two of Controller's sons were supreme and reserve champions respectively. Bapton Controller, at six years old, is probably still one of the most important bulls of the breed, and this year's crop of his calves are most promising.

- (46) **DUNGARTHILL COMMAND** (17099), red, calved 25th January, 1959, bred by Lt.-Col. H. L. Dewhurst—sire, Baldowrie Braemar (10517); dam, (321380) Clipper Ballerina by Ballathie Command (342592); g.-dam, Clipper Mona by Lawton Field Marshal.

Dungarthill Command was a 1st prize winner at Perth in 1960, and was purchased by Naemoor for 2300 guineas. This is his first crop of calves.

- (47) **BURNTON BANK BOOK** (393827)—sire, Calrossie Crocus Count; dam, Burnton Princess Royal 6th.

Burnton Bankbook, 1st and supreme champion at Perth, was bought for 7300 guineas in 1954. After a year at stud, and only in fair condition, he won the supreme championship at the Royal Highland Show in 1955. At Perth in 1956, his first crop of calves averaged 1013 guineas, while in 1957, four calves averaged 2075 guineas. In October, 1958, three of his daughters topped the Draft Sale, making a total of 1500 guineas. A daughter of Burnton Bank Book, Beaufort Orange Talisman 3rd, was female and reserve supreme champion at the Royal Highland Show at Aberdeen in 1959, and female and supreme champion at the Royal English Show in 1960. Daughters of Burnton Bank Book have done well overseas. He is also the sire of Beaufort Princess Royal 51st, who was female and breed champion at the Northern Counties' Show at Inverness, and supreme champion at the Black Isle Show, in 1960.

- (48) GLAMIS PIONEER (11210)—sire, Kair Masterkey; dam, Calrossie Patsy Pauline.

Glamis Pioneer was 1st in his class, junior champion, and reserve supreme champion at Perth in 1958. He was used for two seasons in the herd, and sold to Argentina in 1960 for a high figure. A son, Beaufort Graduate, was male champion at the Black Isle Show in 1961, and reserve supreme champion at Keith.

- (49) BEAUFORT BULLDOZER (381567)—sire, Cruggleton Pentland Firth; dam, Cruggleton Orange Talisman.

Beaufort Bulldozer was champion at the Keith Show, the only time he was ever shown, and sold to Edellyn Farms, U.S.A., for 5000 guineas. He is out of the same famous cow as Beaufort Boludo, sold for 4000 guineas; as Beaufort Orange Talisman, the show heifer sold to the U.S.A. for 1800 guineas; and as Beaufort Bremen and Beaufort Blockbuster, who both have stood in leading herds in the Argentine. Five of Beaufort Bulldozer's calves averaged 1914 guineas at Perth in 1954. His first crop of calves at the Chicago International won the male, female, and grand championships, and a daughter, Von Ber Mar Broadhooks 3rd, was yearling grand champion at the Iowa and Missouri State Fairs in 1960, and at the Nebraska State Fair in 1959.

- (50) BEAUFORT CAPTIVE (6063) was the successful stock bull at Pittodrie, to which Herd he was sold at 4000 guineas. Beaufort Captive's first crop of calves were winners both at Perth and at the Royal Highland Show in 1959, and at the dispersal of the Pittodrie Herd made the great average of over 300 guineas. He is the sire of Beaufort Cravate.

- (51) CRUGGLETON PENTLAND FIRTH (361513)—sire, Cruggleton Braemar; dam, Princess Beatrice.

Cruggleton Pentland Firth was bought privately for 4000 guineas, and bred with great success for three seasons in the herd, after which he went to Duncrahill for a high figure. His sons include Beaufort Bulldozer, sold at 5000 guineas; Beaufort Broadstairs, sold at 4300 guineas; and Beaufort Blackthorne, Bartender, and Breakwater, all sold for 2000 guineas. Many of the best cows in the Beaufort Herd are by him, and his sons have won championships at Smithfield and Edinburgh.

- (52) BANCHORY NOTORIOUS (4414), used for one season in the herd, was 1st in his class and reserve male champion at Nairn and at the Black Isle Show in 1957, and early in 1958 was sold to the Arrowhead Ranch, Alberta, for a high figure. A daughter, Beaufort Butterfly 13th, was female champion at Perth in October, 1958, and another daughter, Beaufort Rothes Baroness 40th, was female champion at Perth in February, 1960, and sold for 600 guineas to the Sussex Herd of Mr. A. W. Bourner. The junior stock bull is out of a dam sired by Banchory Notorious.

- (53) **BEAUFORT COMBINE** (396124) is a full brother to Beaufort Bulldozer, and sold for £2700 to Mr. Horace Crookes in 1955, and has since proved an outstanding sire in South Africa.

- (54) **BEAUFORT CRAVATE** (12833)—sire Beaufort Captive.

Beaufort Cravate was supreme champion at the Northern Counties' Show in 1958, and was withdrawn at 2400 guineas at Perth. Since that time, he has bred successfully in the herd as senior stock bull. His calves can be seen at the sale. He is the sire of Beaufort Flora Broadhooks 11th, female champion at the Northern Counties' Show, and female and supreme champion at the Keith Show, in 1961, and which was reserve female champion and champion Shorthorn at the Scottish National Fat Stock Show at Edinburgh in 1961.

- (55) **CRUGGLETON JUSTINIAN** (387109)—sire, Calrossie Harmony; dam, Jealous Elsie by Cruggleton Willingdon.

Cruggleton Justinian, purchased for £4410, was used very successfully in the Ballathie Herd for four years, and was sold in 1956 for £1750 to one of the leading herds in Australia, in which country he has continued to make his mark as a top sire. A daughter of Cruggleton Justinian recently won the female championship at the Melbourne Show.

- (56) **KAIR SNOWBALL** (112)—sire, Calrossie Crocus Count; dam, Kair Nonpareil Fairy.

Kair Snowball won 4 male championships and Lord Cowdray's Cup for the best animal at the Echt Show in 1957. He has both Cruggleton Perfect and Cruggleton Willingdon in his pedigree. Kair Snowball has produced a large number of beautifully-fleshed cattle. The critics who have said the present-day Shorthorns are getting a little small, should note that Kair Snowball is one of the biggest bulls used in the breed to-day, and after being used successfully in the Echt and Ballathie Herds, was sold to a well-known South African breeder for £1500.

- (57) **BAPTON BRAVE ROBIN** (17504), dark roan, calved 7th March, 1959, bred by Messrs. Cecil & Nigel Moores—sire, Bapton Roan Robin (13110); dam, (51039) Bapton Broadhooks Sheree by Bapton Constructor (6414).

Bapton Brave Robin was purchased by Denend Pedigree Farm at Perth in 1960 for 4800 guineas—a half share was retained by Bapton. He has grown into a massive bull with tremendous bone and a great stock bull outlook—he is easily one of the biggest bulls in the breed to-day, and his first crop of calves, both male and female, shows great promise. Note that he is a double grandson of the famous Bapton Constructor. His dam is an outstanding female, and is uterine sister to Bapton Highway, who is being used with great success in Messrs. Duggan's famous Sittyton Herd in Argentina. Bapton

Highway sired the junior and reserve junior champion at Palermo in 1961—the junior champion sold for 2,250,000 pesos (£10,000), an all-time record price for an Argentine-bred bull. Messrs. Duggan retained the reserve junior champion for use in their herd. Bapton Brave Robin's grandam, Tolquhon Snow Queen (by Bapton Principal) was purchased from her breeder, Mr. John Sleigh, for 1000 guineas, and is one of the best cows in the Bapton Herd. She comes from the same family and is closely related to the famous Kirkton Drum-Major, so successfully used by Señor Enrique Santamarina in the Argentine.

- (58) GLASTULLICH GARRISON (17459), red, calved 10th January, 1959, bred by Messrs. Wm. MacGillivray, Ltd.—sire, Bapton Balmoral (6405); dam, (69418) Glastullich Grace Floss by Calrossie Hyperbole (391674).

Glastullich Garrison was purchased privately from Mr. Otto H. Grosse, Northwood Farm, U.S.A., after he purchased the famous Glastullich Herd. His sire, Bapton Balmoral, was noted for his strength and substance, great hind quarters, and lovely, dark red colour. Garrison has certainly inherited these characteristics from him, and is a big, rugged bull with great bone. He is of the same Floss family as the famous Calrossie Constellation, and his dam was one of the best females in the Glastullich Herd. Bapton Balmoral is the sire of Glastullich Victor, junior stock bull at Northwood, and of Glastullich Sunshine, used for a season at Northwood and sold in the October Sale for 7200 dollars to Mr. Emile Cammaert, Rockyford Stock Farm, Alberta, Canada. Bapton Balmoral's females are really outstanding.

- (59) BAPTON PARAMOUNT (17515), red, calved 16th March, 1959, bred by Messrs. Cecil & Nigel Moores—sire, Calrossie Hyperbole (391674); dam, (70262) Bapton Augusta Eleanor by Calrossie Constellation (396200).

Bapton Paramount was retained from the 1959 crop as a junior stock bull—he was sold at a high figure to Messrs. P. & G. Hughes, Argentina. His sire needs no comment—he is one of the great stock bulls of recent years. Bapton Augusta Eleanor is full sister to the famous Bapton Constructor, and to the 7000-guineas Bapton Cairnbrogie. She is a really wonderful female.

- (60) CALROSSIE INTEGRITY (15661), dark roan, calved 16th February, 1958, bred by Messrs. J. & D. P. MacGillivray—sire, Bapton Balmoral (6405); dam, (411953) Calrossie Augusta Julia by Calrossie Highland Pride (375429).

Calrossie Integrity won 2nd prize at Perth in 1959, and was purchased for the Drynie Herd for 1000 guineas. His sire, Bapton Balmoral, was sold to Millhills for 2400 guineas—at the Millhills Dispersal he was purchased jointly by Calrossie and Glastullich for 5400 guineas, and after being used heavily for two seasons, he was sold to Mr. John Davies, Munduney, South Australia. Bapton Balmoral's dam is full sister to the famous Westdrums stock bull, Erimus Emeritus. Calrossie Augusta Julia, a really outstanding female, is a daughter of the 1950 Royal Show champion, Calrossie Augusta Jewel, who is uterine sister to the famous Calrossie Mercury, Perth champion in 1938, and a great sire at Edellyn.

- (61) **BAPTON ROAN ROBIN** (13110), dark roan, calved 1st January, 1957, bred by Mr. Cecil Moores—sire, Bapton Constructor (6414); dam, (432497) Bapton Augusta Margaret by Kirkton Hercules (381696).

Bapton Roan Robin, although never shown, was universally acclaimed as one of the great bulls of his time. He was used for three seasons in the Bapton Herd before being exported at a very high price to Mr. Ian M'Leod, Martinborough, New Zealand. His females are the tops in the herd to-day and are growing into lovely young cows. He is the sire of Kinellar Royal Robin, junior stock bull at Louada, where he is proving very successful. Another son is the 4800-guineas Bapton Brave Robin—see Reference to Sires (57). Bapton Roan Robin is the sire of the following:—Bapton Red Robin, 2nd at Perth in 1960 and sold for 4000 guineas to Northwood; Glen Cove Cairnbrogie, Mr. Clarence Worden's outstanding show bull, which was supreme champion at Iowa State Fair, New York State Fair, and American International, Chicago; Von Ber Mar Roan Robin, supreme champion at Iowa State Fair when only six months old, and supreme champion at Denver when two years old; Aberfeldy Roan Robin, supreme champion at the Canadian National Exhibition in 1960. Bapton Roan Robin's dam is perhaps Kirkton Hercules's best daughter—she is a female with tremendous character and quality and comes from this famous old Bapton family.

- (62) **BAPTON CONSTRUCTOR** (6414), red, calved 25th January, 1955, bred by Mr. Cecil Moores—sire, Calrossie Constellation (396200); dam, (431434) Aldie Augusta Johanna by Aldie Jonathan Adonis (386875).

Bapton Constructor was sold for 15,000 guineas, and is surely one of the greatest Shorthorn sires ever to be produced in the breed. His record in the Louada Herd is really outstanding. He has created a new era in Shorthorn breeding. Bapton Constructor is the sire of many high-priced and prize-winning bulls, including the 30,000-dollar Louada Bonaparte, the first Canadian bull ever sold to Argentina, going to the famous Sittyton Herd of Señor C. Duggan. He also sired Louada Nugget, sold for 12,200 dollars to Hi Ho, and, at the 1959 Louada Sale, 15 bulls by Bapton Constructor averaged £2500 each. He is the sire of Louada Bomber, male and supreme champion at the Chicago International in 1958. He also sired the female and reserve female champion at the International, and his progeny won all the get-of-sires and groups. His stock to date has sold for over 400,000 dollars. At the recent Louada Sale, Louada Masterpiece, a son of Bapton Constructor out of Bapton Mavis Crocus (by Kirkton Hercules), sold to Señor Duggan, Argentina, for the top price of 15,000 dollars. Bapton Constructor was flown back last March to Denend Pedigree Farm. He has proved himself to be one of the greatest bulls of his time.

- (63) **CALROSSIE CONSTELLATION** (396200), red, calved 1st March, 1953, bred by Messrs. John & D. P. MacGillivray—sire, Calrossie Welcome (368471); dam, (318937) Calrossie Flossy Beau by Kirkton Baronet (335904).

The bull of the year in 1957 needs little comment. He is perhaps one of the greatest sires the breed has produced in recent years. His first son, the record-priced, 15,000-guineas Bapton Constructor, has created a new era in Shorthorns in North America, 15 of his sons being sold at the 1959 Louada Sale to gross £35,795. His stock to date has sold for over 400,000 dollars in

North America. Other famous sons in North America are the 7000-guineas Bapton Cairnbrogie; the 4100-guineas Bapton Copyright; the 2200-guineas Bapton Cavalier; and Bapton Craftsman, sold at the Edellyn Sale to Mr. Anthony Petkus, and now with Mrs. Fenwick, Boll Weevil—all bulls which are making their mark on the breed over there to-day. His females are offering to be grand breeders and milkers, with good heads and grand, sound legs.

- (64) **KIRKTON HERCULES** (381696), white, calved 22nd February, 1950, bred by the late Mr. K. P. MacGillivray—sire, Kirkton Baronet (335904); dam, (318953) Rothes Carlotta by Naemoor Marshal (345049).

Kirkton Hercules was an outstanding sire in the Bapton Herd. His females have tremendous character. Without exception, they are great milkers, and are proving to be grand breeders. Note the number of great bulls throughout the breed to-day who carry Kirkton Hercules' blood. His females have produced such notable bulls as Bapton Roan Robin (see Reference to Sires (61); Bapton Daily Express, the 1959 Perth champion; the 4000-guineas Bapton Connoisseur; the 3000-guineas Bapton Clanroy, the 2200-guineas Bapton Cavalier; the 1800-guineas Bapton Chieftain; the great Bapton Pioneer, who is doing such a magnificent job at Northwood for Mr. Otto Grosse; Louada Masterstroke, the 20,000-dollars stock bull with Maclyn Plantation; and the 15,000-dollars Louada Masterpice, recently sold to Messrs. Duggan for use in the famous Sittyton Herd in Argentina—note that the three last mentioned bulls are all out of the 1500-guineas Bapton Mavis Crocus. Kirkton Hercules is also the sire of the 3300-guineas, record-priced female, Bapton Crocus Lita, and also of Bapton Aurora, sold for 5000 guineas, whose three sons won the Pittodrie Cup at Perth in 1957, and included the supreme champion, Bapton Controller. Three of Hercules' daughters won the Duthie Prize at the Royal Highland Show in 1956.

- (65) **CALROSSIE HYPERBOLE** (391674)—sire, Calrossie Welcome; dam, Rothes Flower by Naemoor Marshal.

Calrossie Hyperbole, a grand-headed, red bull, was used with great success for five seasons at Calrossie. He headed the list of successful sires in 1957, and his progeny include two Perth champions—Glastullich Gay Lad, sold for 6200 guineas to Mr. Neville Blond, and Calrossie Fortitude, sold for 13,000 guineas to Col. S. J. L. Hardie.

- (66) **CHAPELTON CHIEFTAIN** (394064) was winner of the Calrossie Cup, the Cornwallis Maude Trophy, and, along with Chapelton Bright Flame, winner of the Bullrich Cup at the R.A.S.E. Show at Newcastle, in 1956. He is the sire of Chapelton Commando, 1st and reserve senior champion at Perth in 1957, and sold to Bapton for 5100 guineas; and also of Chapelton Clipper Chief, winner of the Calrossie Cup at the R.A.S.E. Show at Bristol in 1958.

- (67) **TRADLIN CHIEFTAIN**, red—sire, Kinellar North Star; dam, Aldie Meg Cherrywood by Beaufort Chevalier.

Tradlin Chieftain was retained as a stock bull because he was the best son of Kinellar North Star, who was retained as a stock bull because he was the best son of the famous breeding bull, Gallant Marshal.
